#### ABSTRACT

This package of camera ready masters is one of a set of twelve documents describing the Career Planning Support System (CPSS) and its use. (CPSS is a comprehensive guidance program management system which (1) provides techniques to improve a high school's career guidance program, (2) focuses on the skills students need to make decisions about and pursue their life goals, and (3) offers the school step-by-step directions in planning, developing, implementing, and evaluating an upgraded career guidance program that is compatible with student career development needs and resources available in the school and community.) Included are masters (questionnaires, instructions, CPSS Program Information File, etc.) needed for the following CPSS activities: Resource Assessment, Surveying, Tabulation, Selecting Program Goals, and Producing Career Development Units (CDUs). The number of copies and time for use is explained in the coordinator's handbook component (CR 012 562) of CPSS. (TA)

Documents acquired by ERIC include many informal unpublished materials not available from other sources. ERIC makes every effort to obtain the best copy available. Nevertheless, items of marginal reproducibility are often encountered and this affects the quality of the microfiche and hardcopy reproductions ERIC makes available \* via the ERIC Document Reproduction Service (EDRS). EDRS is not \* responsible for the quality of the original document. Reproductions \* \* supplied by EDRS are the best that can be made from the original.

B/M-1 Resource Assessment

- 1. Descriptive and Evaluative Data on the Existing Career Guidance Program.\* Insert after this page descriptions of career development activities being conducted by your school prior to the start of CPSS. Also provide any available evidence that indicates that the activities are effective. If possible, limit the description and evaluative data for each prior career development activity to one page. A suggested format for documenting an existing activity is given below:
  - A. Name of Activity: Use only if the activity has an official and/or popular designation that most people in the school will recognize.
  - B. Goal(s): List the stated goal(s) for the activity, if available.
  - C. · Objective(s): List the stated objective(s) for the activity, if available.
  - D. Activity Leader(s). List the individual(s) within and, if appropriate, outside the school who has prime responsibility for the activity.
  - E. Infusion Point: Identify where the activity is being conducted.
  - F. Schedule. Provide the date(s) or time period(s) during which the activity is conducted.
  - G. Activity: Briefly describe the activity. If possible, include a description of at least the following. (1) methods, including materials used in the order of their use and (2) the amount of time needed by students to complete the method.

#### H. Resources:

- People List the names of all individuals who are responsible for instruction, coordination, counseling, etc., in the activity. For each individual, provide the amount of time utilized for the activity.
- b. Materials List all materials used, such as pamphlets, films, books, forms, etc., and the amount of time each is used.
- c. Equipment List all equipment, such as projectors, tape recorders, etc., used and the amount of time each is used.
- d. Space List only unusual space requirements.
- e. Funds List the money that is being spent for the activity.
- I. Evaluative Data: Briefly describe evidence that indicates that the activity is effective. If available, cite the degree to which students achieve objectives and their reactions to participating in the activity.

<sup>\*</sup>Information for this item is collected only once.

2. Current Career-Related Programs in Feeder Schools. Identify and briefly describe careerrelated programs currently being conducted at the schools (elementary, middle, and junior
high) whose majority of students eventually attend your high school. Use additional pages
if necessary.

3. State and District Career Guidance/Development Goals. Attach or write below the career guidance or development goals prescribed or suggested by your state educational agency or local district.

School Resources

### 4. Faculty/Staff.

a. How many faculty/staff members (administrators, counselors, teachers, teacher's aides, secretaries, etc.) does your school have? List the faculty/staff members by unit or department (administration, counseling and guidance department, verbal communication department, social studies department, etc.) and by type of people (administrator, teacher, etc.). The list already printed below is just to get you started. Please add appropriate positions.

b. Identify any agencies or units (such as media centers, film libraries, instructional services centers, etc.) in your school district, state department of education, local library, labor organization, etc., that store and distribute career development materials. Also, specify the way(s) specific materials can be identified (for instance, by using manuals, or catalogues) and the procedures for acquiring the materials for your school's use. There is no need to duplicate information here. If the information is already catalogued somewhere, just reference its location.

, ' ' <u>,</u> '		WHAT I HAVE JUST PASSED OUT TO YO A TEST. IF YOU'LL AVOID LOOKING AT IT FOR IT TOGETHER AFTER I'VE EXPLAINED WHY WE IN THIS SCHOOL TO FILL OUT THESE QUESTION	A MOMEN 'RE ASKIN	JT. WE	CTL GO	THROUGH
	-	AS SOME, IF NOT ALL, OF YOU KNOW,	OUR SCHO	OL.ÍS	USING	THE J

AS SOME, IF NOT ALL, OF YOU KNOW, OUR SCHOOL IS USING THE CAREER PLANNING SUPPORT SYSTEM TO IMPROVE OUR CAREER GUIDANCE PROGRAM. WHAT WE HAVE TO DO FIRST IS FIND OUT WHAT KINDS OF CAREER PLANNING HELP YOU NEED SO THAT WE DON'T WASTE TIME DESIGNING ACTIVITIES THAT TEACH YOU WHAT YOU ALREADY KNOW. THIS QUESTION NAIRE IS DESIGNED TO FIND QUT WHAT CAREER SKILLS YOU NEED HELP WITH THE ONLY "RIGHT" ANSWERS ARE THE ONES THAT ARE "RIGHT" FOR YOU LET'S GLANCE THROUGH THE QUESTIONNAIRE TOGETHER NOW, BUT PLEASE DON'T START MARKING IT UNTIL WE'VE FINISHED.

THE QUESTION AT THE TOP OF THE FIRST PAGE ASKS FOR YOUR GRADE LEVEL. JUST CHECK THE BOX THAT IS APPROPRIATE FOR YOU.

Form No. 1A

70\*

THE NEXT TWENTY QUESTIONS ASK WHETHER YOU HAVE LEARNED CERTAIN CAREER SKILLS THAT ARE IMPORTANT IN PLANNING AND ACHIEVING A CAREER. AS YOU CAN SEE, THE QUESTIONS ARE GROUPED UNDER CAPITAL IZED HEADINGS. EACH OF THOSE HEADINGS DESCRIBES WHAT THE QUESTIONS IMMEDIATELY UNDER IT ARE ABOUT. FOR INSTANCE, THE FIRST HEADING IS "KNOWING YOURSELF AND OTHERS," AND QUESTIONS 1 - 6 ASK WHETHER YOU HAVE LEARNED HOW TO FIND OUT ABOUT YOUR INTERESTS AND ABILITIES, WHETHER YOU HAVE LEARNED HOW TO MAKE PERSONAL AND IMPORTANT DECISIONS IN A LOGICAL WAY, AND SO ON. THE QUESTIONS UNDER THE OTHER HEADINGS ARE ABOUT EXPLORING JOBS, GETTING A JOB AND KEEPING IT, EXPLORING EDUCATION AND TRAINING YOU NEED.

TO ANSWER THESE FIRST TWENTY QUESTIONS, CHECK EITHER THE BOX LABELED "YES" OR THE BOX LABELED "NO." IF YOU'RE NOT SURE YOU'VE LEARNED ALL OF THE SKYLLS LISTED IN A QUESTION, YOUR ANSWER TO THE QUESTION SHOULD BE "NO."

PLEASE DON'T THINK THAT THE QUESTIONS ABOUT JOBS SHOULD BE ANSWERED ONLY BY STUDENTS WHO PLAN TO WORK AFTER HIGH SCHOOL INSTEAD OF GOING ON TO SCHOOL. WHEN, "JOBS" ARE MENTIONED ON THE QUESTIONNAIRE, WE MEAN ALL TYPES OF FULL-TIME, PAID WORK AFTER HIGH SCHOOL OR OTHER EDUCATION, SUCH AS SALES, CARPENTRY, NURSING, SECRE, TARIAL WORK, TEACHING, OR BEING A LAWYER.

ALSO, DO NOT THINK THAT THE QUESTIONS ABOUT EDUCATION AND TRAINING SHOULD BE ANSWERED ONLY BY STUDENTS WHO PLAN TO ATTEND COLLEGE. WHEN "EDUCATIONAL OR TRAINING PROGRAMS" ARE MENTIONED, WE ARE INCLUDING ALL TYPES OF LEARNING EXPERIENCES, SUCH AS ON THE JOB TRAINING, COLLEGE, UNIVERSITY, APPRENTICESHIP PROGRAMS, COMMUNITY AND JUNIOR COLLEGE, AND TECHNICAL SCHOOL. ALL OF THE QUESTIONS ON THIS QUESTIONNAIRE ARE DIRECTED TO ALL STUDENTS REGARDLESS OF WHAT YOUR FUTURE PLANS ARE.

QUESTIONS 21 - 23 ARE SELF-EXPLANATORY. JUST REMEMBER THAT YOU CAN CHECK MORE THAN ONE BOX TO ANSWER QUESTION 22. IN QUESTION 24, PLEASE MAKE ANY COMMENTS YOU WISH ABOUT YOUR OWN CAREER NEEDS OR ABOUT THE SCHOOL'S CAREER GUIDANCE PROGRAM.

THERE IS A SPACE FOR YOUR NAME AT THE BOTTOM OF THE LAST PAGE BUT YOU DO NOT HAVE TO SIGN THE QUESTIONNAIRE UNLESS YOU WANT TO. WHETHER OR NOT YOU SIGN YOUR NAME IS ENTIRELY UP TO YOU. IF YOU SIGN YOUR NAME, YOUR QUESTIONNAIRE MAY BE KEPT IN A COUNSELOR'S FILES FOR FUTURE USE BY COUNSELORS IN SESSIONS WITH YOU. REGARDLESS OF WHETHER YOU SIGN YOUR NAME, YOUR QUESTIONNAIRE WILL BE SEEN ONLY BY COUNSELORS AND BY THOSE PERSONS WHO TABULATE THE QUESTIONNAIRES.

WE'RE ASKING ALL THE STUDENTS IN OUR SCHOOL TO EILL OUT THESE QUESTIONNAIRES BUT YOU DO NOT HAVE TO ANSWER ANY OF THE QUESTIONS UNLESS YOU WANT TO. OF COURSE, WE HOPE THAT YOU ALL WILL BECAUSE IN ORDER TO DESIGN A CAREER GUIDANCE PROGRAM THAT MEETS THE NEEDS OF OUR STUDENTS, WE MUST FIND OUT WHAT THOSE NEEDS ARE.

Form No 1A

YOU MAY BEGIN ANSWERING THE QUESTIONNAIRE NOW. IF YOU HAVE ANY QUESTIONS, RAISE YOUR HAND AND I'LL TRY TO ANSWER THEM.

NOTE: When asked by a student for help on a question, explain the question and/or instructions. Do not suggest how to answer.

- Step 5 When all students have finished, collect all questionnaires. Do not read the students' answers.
- Step 6 Read the following capitalized directions to students.

WE BELIEVE THAT IT IS ALSO IMPORTANT FOR THE SCHOOL TO LEARN HOW YOUR PARENTS OR GUARDIANS FEEL ABOUT CAREER GUIDANCE, SO WE'VE PREPARED A QUESTIONNAIRE FOR THEM, TOO. A COPY OF THAT QUESTIONNAIRE IS INSIDE EACH OF THESE ENVELOPES, ALONG WITH A LETTER OF EXPLANATION.

PLEASE GIVE YOUR PARENTS OR GUARDIANS AN ENVELOPE AND ASK THEM TO COMPLETE THE QUESTIONNAIRE. THEN RETURN THEIR QUESTIONNAIRE TO ME IN THE ENVELOPE IN ONE WEEK.

THANKS FOR DOING YOUR PART TODAY IN IMPROVING OUR CAREER-GUIDANCE PROGRAM.

- Step 7 Distribute the envelopes to students.
- Step 8 Keep the completed Student Questionnaires in a safe place until they are picked up by a member of the Student Questionnaire Team.
- During the next week, administer the Student Questionnaire to any students who were absent on the day of the initial administration. (You may choose to have them complete the questionnaire as an out-of-class assignment.) These completed questionnaires will be picked up by a member of the Student Questionnaire Team approximately one week after your initial administration of Student Questionnaires.
- Keep the completed Parent Questionnaires in a safe place as they are returned to you.

  They will be picked up by a member of the Parent Questionnaire Team one week after you gave them to your students.

#### CAREER PLANNING SUPPORT SYSTEM

#### Parent Questionnaire

We have grouped student career development skills into five general areas and would like to know how important you feel it is for the high school to help students acquire skills in each of these areas. Your opinions will help us in determining where to initially focus our efforts in order to improve our school's career guidance program.

Please place a "b" in the space in front of the area you believe to be the most important career development area to stress in high school. Place a "2" in front of the area you feel is second in importance. Continue ranking the remaining areas, giving the area you feel to be least important a rank of "5." Be sure to rank all areas.

Rank	
I.	Knowing Oneself and Others — Skills students need to become aware of themselve and their environment in order to be effective in the changing world of work.
<u>r</u> II	Exploring Jobs — Skills students need to find out information about jobs in order to relate their interests, abilities, and values to various jobs.
<u> </u>	Getting a Job and Keeping It - Skills students need to locate, obtain, and adjust to a job.
IV.	Exploring Education and Training — Skills students need to find out information about various educational or training programs that can best prepare them for job
. V.	Getting the Education and Training One Needs — Skills students need to locate, enter, and adjust to an educational or training program.
es No	2. In general, do you think it is important for high schools to help students choose and plan for the type of career they want and the education and/or training it requires?

#### Dear Parent or Guardian:

Students, teachers, counselors, and administrators in our high school are working together to improve the school's guidance program. We are determined to provide the best career guidance program possible with our resources—a program to help your child relate school activities to the world of work and further job-related training or education after high school.

The process we are using to redesign our career guidance program is called the Career Planning Support System, which is explained in the enclosed brochure. Our new program will be based on the career development needs of students. Perhaps your son or daughter has told you about the students questionnaires, aimed at identifying these needs, that all students at this school have been asked to fill out.

In conjunction with identifying student needs, it is important that we find out what kinds of career guidance assistance parents want their children to receive in school. Therefore, we ask that you fill out the enclosed questionnaire and have your son or daughter return to school the completed form in the enclosed envelope. (If you receive more than one questionnaire, please complete and return only one.) We ask that you not put your name on the questionnaire; your responses will remain anonymous. You may choose not to answer some or all of the questions, but, of course, we hope you will help the students in our school by completing the entire form.

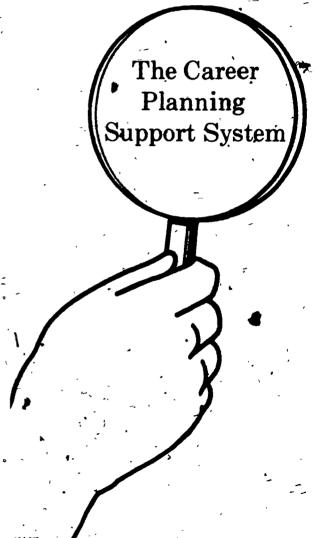

On behalf of the students, teachers, counselors, and administrators of our school, I want to thank you in advance for filling out and returning the questionnaire. You can be assured that parents' responses will help us develop a better career guidance program for our students.

Sincerely,

Principal

Form No. 2A

# A CLOSER LOOK AT.....

Form No. 2B

Our school is concerned about the problems students all over the country are having in preparing for useful, personally satisfying careers. Some high school-age young people do not have the skills and knowledge necessary to even look for a job, let alone prepare for a career. Relatively simple activities such as completing a job application form and writing a resume can be monumental (and unsuccessful) tasks for a young person ill-prepared.

Because all our efforts are directed toward helping our students make a life for themselves after high school, we want to give them the career development assistance they need. We are determined to develop the best career guidance program possible with our resources, and we have chosen the Career Planning Support System (CPSS) to help us do that.

#### **BASED ON STUDENT NEEDS**

CPSS is a set of procedures and materials that help schools redesign their

career guidance programs based on the needs of all students-minority students, girls as well as boys, students who haven't yet decided what they want to do after high school as well as the college-bound and those who plan to work immediately after high school. The project begins by identifying our students' career development needs and the resources our school and community have to meet those needs. Then the CPSS procedures demonstrate how our school can set goals and objectives for our program and develop detailed strategies for accomplishing them. The goals and objectives are based on students' needs but also reflect the opinions of parents, recent\graduates, and our faculty/ staff.

Because the goals and objectives show what students should be able to do or understand after participating in career development activities, they provide a standard against which we can decide whether our program is doing its job. CPSS itself provides procedures our school can use to check periodically whether the program is responding to the career development needs of students. Our program can be altered to reflect changes in our school, student body, and society itself.

The work of redesigning our career guidance program will be done by work groups composed of students, faculty/staff, administrators, and interested persons in the community. This kind of involvement fosters a "common cause" attitude that other schools have found healthy. The CPSS procedures and materials are designed to insure that the work students and others do is of professional quality. They include materials that teach any necessary concepts that may be unfamiliar to students and to community persons unaccustomed to working with schools.

#### EXTENSIVELY TESTED

CPSS has been under development since 1971 by The Ohio State University's Center for Vocational Education, under the auspices of the National Institute of Education. It has been tested in forty schools in twelve states.

We look forward to the tasks ahead, because we believe that CPSS can help us help our students. If you have any questions concerning CPSS, please contact the school. We'll be happy to discuss the project with you.

#### CAREER PLANNING SUPPORT SYSTEM

#### Graduate Questionnaire

Listed below are twenty career development skills that are important elements of a career guidance program. Please indicate whether you received adequate help in each of the skills while you were in high school by placing a check () in the appropriate box. The purpose of this questionnaire is not to find out whether you are now skilled in these areas, but to find out whether your high school provided you adequate assistance in each skill listed. Your candid responses will help the high school determine which skills may need more emphasis in its career guidance program. Feel free to comment on the career guidance program of the school near the end of the questionnaire.

Did your high school provide you with adequate assistance in the following skills? Check either yes or no for skills 1 through 20:

#### KNOWING YOURSELF AND OTHERS

24. For items 1 - 20, you indicated whether you received adequate help from your high school for each of 20 career development skills. As you may have noticed, these 20 skills were grouped into five career development areas. We would like to know how important you feel it is for high schools to help students acquire skills in each of the areas. Please place a "1" in the space in front of the area you believe to be the most important career development area to stress in high school. Place a "2" in front of the area you feel is second in importance. Continue ranking the remaining areas, giving the area you feel to be least important a rank of "5." Be sure to rank all areas.

#### Career Development Skill Area

#### Rank Knowing Oneself and Others - Skills needed for students to become aware of themselves and their environment in order to be effective in the changing world of work. Exploring Jobs - Skills needed for students to find out information about Π. jobs in order to relate their interests, abilities, and values to various jobs. Getting a Job and Keeping It - Skills needed for students to locate, obtain, Ш. and adjust to a job. Exploring Education and Training - Skills needed for students to find information about various educational or training programs that can best prepare them for jobs. Getting the Education and Training One Needs - Skills needed for students to locate, enter, and adjust to an educational or training program.

Dear Alumnus:

Students, teachers, counselors, and administrators in our school are working together to improve ur career guidance program. We are determined to provide our students with the best career guidance program possible with our resources. To do so, we need your help.

We are asking you and some other recent paduates to fill out the enclosed questionnaire to identify in what ways you believe your high school helped you develop career planning skills ard in what ways we could have helped you more.

Please complete the excloset questionnaire and return it in the envelope provided. Please do not put your name on the questionnaire; your responses will remain confidential. (Only the coordinates of our career guidance project will be able to identify your questionnaire by knowing the identifying number in the upper right corner. That number will be used only to make it possible for us to mail a reminder to those graduates who do not return their questionnaires.) Although you may choose not to answer some or all of the questions, we hope that you will take this opportunity to help the present and future students at the school from which you graduated.

On behalf of those students and our teachers, counselors, and administrators, I want to thank you in advance for completing the questionnaire. The information you provide will undoubtedly be helpful as we work to improve our program.

Sincerely,

Principal

#### Dear Alumnus:

Recently, I sent you and other selected former students a one-page questionnaire asking for information that will be useful as our school works to improve our career guidance program. The questionnaire is aimed at finding out in what ways your high school helped you develop career planning skills and in what ways we could have helped you more.

Perhaps that questionnaire was accidently misplaced or you have not had time to complete and return it to us. In case it was lost or misplaced, I have enclosed another copy. We hope that you will take time now to complete the questionnaire and return it. Your answer to the questions will remain confidential and you may choose not to answer some or all of the questions. Because the information requested is critical to our program and because we value your opinions, we hope you'll help us by completing and returning the questionnaire.

Thank you.

·Sincerely,

Principal

P. S. If you have already returned your completed questionnaire, please ignore this second request. And thank you for helping us.

#### CAREER PLANNING SUPPORT SYSTEM

#### Faculty/Staff Questionnaire

We have grouped student career development skills into five general areas and would like to know how important you feel it is for the high school to help students acquire skills in each of these areas. Your opinions will help us in determining where to initially focus our efforts in order to improve our school's career guidance program.

Please place a "1" in the space in front of the area you believe to be the most important career development area to stress in high school. Place a "2" in front of the area you feel is second in importance. Continue ranking the remaining areas, giving the area you feel to be least important a rank of "5." Be sure to rank all areas.

Career Development Skill Areas

4	Rank		
<b>√</b> ′	•		Knowing Oneself and Others — Skills students need to become aware of themselves and their environment in order to be effective in the changing world of work.
i,		II.	Exploring Jobs — Skills students need to find out information about jobs in order to relate their interests, abilities, and values to various jobs.
	•	III.	Getting a Job and Keeping It — Skills students need to locate, obtain, and adjust to a job.
•	* * *	į IV.	Exploring Education and Training — Skills students need to find out information about various educational or training programs that can best prepare them for jobs.
,	•	V;	Getting the Education and Training One Needs — Skills students need to locate, enter; and adjust to an educational or training program.
Y	es N	lo □ 2.	In general, do you think it is important for high schools to help students choose and plan for the type of career they want and the education and/or training it requires?
	•		
3.	Please	add any	comments you wish to make about the school's career guidance program.

Dear Faculty/Staff Member:

We need your help to improve our career guidance program via the Career Planning Support System. The enclosed questionnaire asks questions aimed at finding out what career development assistance you believe our high school should provide its students. We hope you will take this opportunity to provide suggestions that are as specific as possible.

Please fill out the questionnaire and return it to

as soon as possible. Please do not put your name on the questionnaire; your responses will remain anonymous. Although you may choose not to answer some or all of the questions, we hope you will help the present and future students of your school by responding to all questions. You can be assured that your opinions will have an impact on the career guidance program ultimately developed.

Thank you.

Signately,

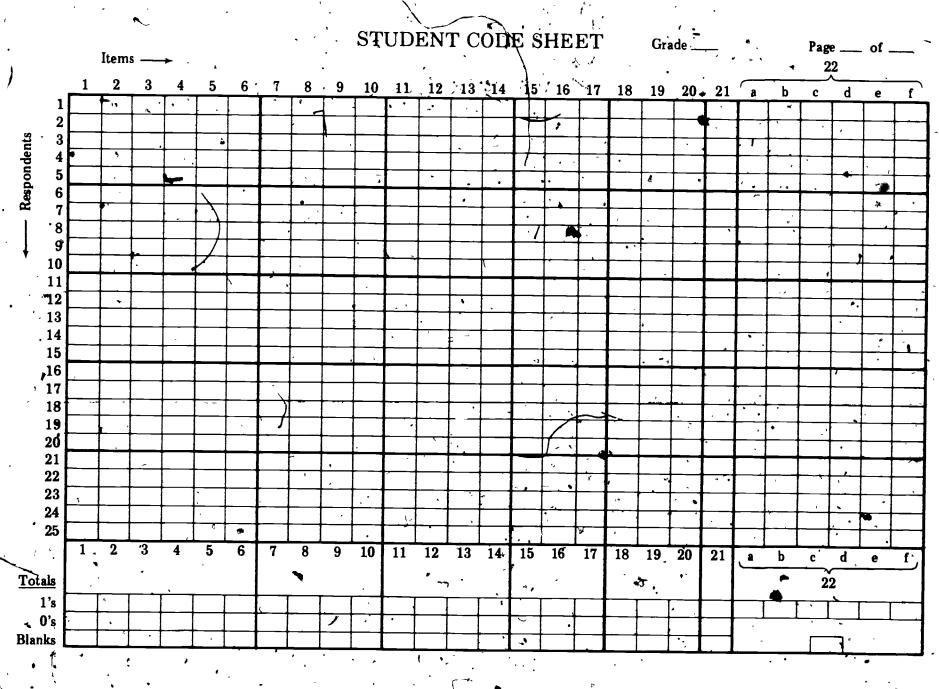

Principal

## CAMERA READY MASTERS

B/M-4 Selecting Program Goals

#### CPSS PROGRAM GOAL LIST

(Derived from twenty career development skill items in the Student Questionnaire)

Numbers on this list correspond to the question numbers on the questionnaire

- 1. The student will be able to explore his/her interests, abilities, and values.
- 2. The student will be able to identify and solve personal problems common to young people in high school.
- 3. The student will be able to apply logical steps in making important decisions in his/her life, such as choosing a job, further education, or a place to live.
- 4. The student will recognize how the different attitudes people have toward males and females can affect job or education or training opportunities.
- 5. The student will recognize how the different attitudes people have toward racial or ethnic groups can affect job or education or training opportunities.
- 6. The student will be able to deal with situations that he/she may encounter after leaving high school, such as being financially independent remaining single, getting married, and raising a family.
- 7. The student will be able to use various standard job reference materials, such as The Occupational Outlook Handbook, The Dictionary of Occupational Titles, and The Encyclopedia of Careers.
- 8. The student will be able to identify specific characteristics of several jobs, such as pay, \*raining required, work hours, opportunity for advancement, vacation, and demand for the job.
- 9. The student will be able to identify the general daily activities that are performed on severaljobs.
- 10. The student will be able to compare his/her interests, values, and abilities with those needed on several jobs.
- 11. The student will demonstrate his/her abilities to correspond properly with a potential employer by correctly filling out a job application form, writing a good letter of application, and preparing an adequate summary of his/her qualifications and experience.
- 12. The student will be able to present himself/herself effectively in a job interview.
- 13. The student will be able to locate and use various resources in the community, such as employment bulletins, employment agencies, and people that could assist him/her in finding a job.
- 14. The student will be able to apply problem-solving techniques to deal with situations that he/she might find on the job, such as poor communication, prejudice, attitude and value conflicts, getting along with fellow-workers and supervisors.

Form No. 19

- 15. The student will be able to identify the characteristics of several different educational or training programs, such as what jobs they prepare one for, cost of the program, and what is required for entrance and completion.
- 16. The student will be able to compare his/her interests, values, and abilities with those needed for specific education or training programs.
- 17. The student will be able to utilize various resources available, such as brochures, catalogues, and people in the programs, to explore education or training programs.
- 18. The student will be able to plan courses to take in high school to apply to his/her occupational choices.
- 19. The student will be able to apply for entrance into an education or training program, such as contacting the appropriate person, and correctly completing an application form.
- 20. The student will be able to apply problem-solving techniques to deal with situations that he/she might find in education or training programs, such as getting along with fellow students and teachers and maintaining a good grade average.

#### DIRECTIONS FOR WRITING PROGRAM GOALS

This handout is provided for Steering Committee members so that they can become familiar with CPSS goal format and to gain expertise in writing additional goals for your career development program. The information to be learned and practiced is written for self-instruction so that each member may work independently. Once the techniques for writing program goals have been mastered, you will be ready to write goals that are not based on the present Student Questionnaire items for your school.

Part 1 Goals in the provided program goal list are based on career development skills identified in the Student Questionnaire. The questionnaire is designed to identify which of these skills students have already acquired and which of the skills students are lacking. Goals state what career development skills students should have after participating in the school's career guidance program.

Activity 1 Complete the following statement:

Program goals state:

- A. How much students will be involved in career development activities
- B. The skills students need to successfully plan their careers
- C. Both A and B

ANSWER: B is correct. Program goals do not state how much students will be involved in career development activities.

Form No. 20

NOTE:

The career development skills identified by the questionnaire are only a sample of all skills not led by stadents. Because the questionnaire does not present a complete list of skills, goals may be based on other sources to provide a comprehensive set of goals for the school's career guidance program. Goals may be based on requirements of state and local educational agencies. They also may be based on career development skills, knowledge, and attitudes that are considered to be important to students in the professional judgment of the individuals involved in writing goals.

159

Activity 2 Complete the following sentence:

Goals written for your career guidance program may be based on:

- A. Knowledge, skills, and attitudes considered to be important to students in the judgment of the individuals writing goals
- B. Educational requirements of state or local agencies
- C. Career development skills identified in the Student Questionnaire
- D. \*.All of the above

ANSWER: D is the correct answer. Goals may be based on all three sources listed in A-C.

Part 3

Goals are written to define the direction for your school's career development program. Taken together, the goals should identify most of the important career development skills, knowledge, and attitudes students would need to plan satisfying careers, no matter what type of career they choose. Goals enable students to know what they are expected to learn in career development activities. Goals also define the career development skills and knowledge the school is expected to impart to the students.

Activity 3 Complete the following statements:

Goals are written to:

- A. Define the resources needed for the career guidance program
- B. Define the skills and knowledge the school is expected to impart to the students in the area of career development
- Define what knowledge, skills, and attitudes students are expected to acquire in career develop activities
- D., A and B
- E: B and C

ANSWER: E is correct. Goals define both what the school is expected to impart to the students and what the students are expected to learn.

Part 4 A goal has two main parts: actor and outcome.

- A. Actor The person or persons for whom a goal is written are the actors. Students should be the focus of your career guidance program. Therefore, goals should always have students as the actors.
- B. Outcome The outcome portion of a goal states what skill, knowledge, or attitude a student should have after participating in career development activities. The outcome should always be related to the area of career development.

#### Activity 4 Complete the following statements:

The persons for whom goals are written are:.

- A. Parents .
- B. Students
- C. Teachers
- D. All of the above.

ANSWER: B is correct. All career development activities are planned to benefit students. Therefore the goals of the program are written for students.

The outcomes stated in a goal:

- A. Are concerned with career development
- B. . Describe the career development skills teachers will need
- C. Tell what skill, knowledge, or attitudes students should have
- D. A and B above
- E. A and C above
- F. B and C above

ANSWER: E is correct. The outcome portion of a goal states what a student should be able to do in the area of career development. The outcome does not describe skills teachers will need. The entire goal is written for students who should be the focus of a career guidance program.

Part 5

An outcome states what a student should be able to do. It should not state what activity the student is involved in to acquire the knowledge or skill. For example, to state that "The student will visit the state employment service" describes an activity, or a process, or an instructional method that could result in any number of skills from knowing the location of the employment service to being familiar with the services offered there. It would not be an acceptable goal because it describes an activity rather than the skill, knowledge, or attitude a student should have. Goal statements must identify the skills, knowledge, or attitudes a student should have. Goal statements should not describe the activities or processes or methods used to acquire the skill.

- Activity 5 Decide which of the following statements describe behaviors (knowledge, skills, and attitudes).
  - A. The student will be able to describe the economic aspects of home management.
  - B. The student will meet with a counselor twice a semester.
  - C. The student will be able to identify the educational requirements for three occupations.
  - D. The student will attend a meeting on career planning sponsored by the local chamber of commerce.
  - E. The student will visit two employment agencies.
  - F. The student will contact the personnel managers of various local industries.
  - G. The student will be able to compare the advantages and disadvantages of different occupations.

ANSWER: You should have chosen, A, C, and G above. These statements describe skills and knowledge that students may possess. Statements B, D, E, and F describe activities or processes.

Part 6

Goals included in the CPSS Program Goal List are based on items 1-20 from the Student Questionnaire. The need for each item, as expressed by the students, has been recorded on Tables 41 to 45. These goals are written by use of both the questionnaire item and the corresponding statement on the table as references. The survey items are more specific than the tables. The statements on the tables are written in terms that are more technically correct (e.g., "occupation" as "career" rather than "job"). The goal that is written is a direct translation of the questionnaire items, using the language of the tables. For example, item 1 on the questionnaire is written:

"Have you learned how to explore your interests, abilities, and values?"

The corresponding statement on Table 41 reads:

"Exploring interests, abilities, and values."

Translating the questionnaire item into a goal, using the language of the tables, the goal is stated as follows:

"The student will be able to explore his/her interests, abilities and values."

Note that the above statement has <u>student</u> as the <u>actor</u> and <u>describes</u> an <u>outcome</u>, the skill the student should have after participating in a career development activity.

Any goals that are not included in the provided CPSS Program Goal List should be written in the same format as goals that are included in the provided CPSS Program Goal List (i.e., student as actor, outcome stating a skill, knowledge, or attitude in the area of career development, etc.).

Activity 6

Which of the following would be acceptable goals for your career guidance program? If a goal is not acceptable, state why

- A. The student will be familiar with the entrance requirements of the schools of his/her choice.
- B. The student will participate in at least two career development activities to be offered during free periods.
- C. Teachers will be able to assist students in planning course selection for a given career.
- D. The student will recognize the relationship of his/her abilities and interests to his/her career goals.
- E. Ninth grade students will be able to relate the course they plan for finishing high school to their career plans.

ANSWER: • A, D, and E are acceptable goals. They describe knowledge and attitudes students should have in the area of career developments

Goal B is not acceptable because it describes an activity students will take part in rather than the skill, knowledge, or attitude they should have.

Goal C is not acceptable because it does not have students as the actors.

NOTE:

Activity 6 concludes this handout. If you had difficulty with more than one goal statement in Activity 6, then review this handout. If you missed one or less, inform the CPSS coordinator that you are ready to begin writing goals.
